

INTERWRITE™ VIRTUAL PRS

Interwrite Virtual PRS is designed for use with networked computers or Windows-based PDAs in a classroom with or without the Interwrite PRS RF clickers.

Interwrite VIRTUAL PRS is the new software version of the AWARD-WINNING Interwrite PRS student response system. Students can participate in an Interwrite PRS Session, answer questions, turn in homework or take a self paced test just as if they were using a PRS RF Clicker – all from their computer or PDA.

- Ask questions in a variety of formats
- Get instant feedback from your class
- PC version available for Windows®, Mac® and Linux
- PDA version requires Windows Mobile with integrated WiFi

SPECIAL OFFER!
Interwrite Virtual PRS software licenses are FREE for all users until July 1, 2007. Download Interwrite Virtual PRS Software at www.InterwriteLearning.com
